
APPENDIX J

Landscape Plan

The front entrance landscaping will be expanded as part of the Terminal Enhancement Project. Landscape Architects Enns Gauthier have been engaged to develop a landscape plan that will provide an attractive streetscape as well as shield the visibility of some of the industrial activity on the site.

The landscape plan calls for the addition of hedges, trees and shrubs on the street side of a chain link fence. This landscaping will be placed on the South side of the expanded parking lot. It will also extend along the East side of the new entrance sidewalk. Please see the landscape layout on the attached landscape plan drawings.

FIBERCO FACILITY

PLANTING IMPROVEMENT

ISSUED FOR CLIENT REVIEW
